04

The uniqueness of this product lies in its format, which combines the charm of an illustrated story inspired by a quote from a specific artist or group of artists with engaging art exercises. These activities enable children to explore, analyze, classify, draw, color, and create their own artworks.

# The Skateboarding Dot

A line is a moving dot.

05

"The Skateboarding Dot" is the first of seven workshops created by Cece and Peto. The story is based on the famous quote of Vasili Kandinsky, "A line is a moving dot." In this narrative, The Skateboarding Dot longed to become a line. And he achieved his goal through the art of skating. Cece and Peto follow him around the park to discover what they can do with lines.

# Creative Notebook

it belongs to...

06

The creative notebook is an essential companion to the storybook. Each child deserves their own creative notebook to ensure a personalized experience, which is why they can be purchased separately in any quantity. In contrast, the storybook is ideal for sharing and encouraging fun among children. Both the storybook and the creative notebook are available in Spanish or English.
